ADVISORY SERVICES CASE STUDY

Eliminate Unnecessary Supply Chain Spend

CHALLENGES

- Lifepoint started with a facility-based value analysis program, and lacked system-wide oversight into everything that is happening at the facility level

SOLUTIONS

- HealthTrust helped eliminate unnecessary supply chain spend through Advisory Services expertise
- HealthTrust helped structure a clinically-focused program to make data driven decisions that drive value and positively impact patients.

OUTCOMES

- HealthTrust built a structure and governance model which launched 5 initiatives valued at over **\$1M**
- HealthTrust ensured that each facility has the same structure and process which has led to efficiency gains and more value realized

Lifepoint Health

Lifepoint Health is a leading healthcare delivery network that extends from coast to coast, consisting of community hospitals, rehabilitation and behavioral health hospitals, and additional sites of care.
